

VCA needs a little R & R--a Roof & some Repairs.

The roof has been patched many times, but it just might be original to the building, which is nearly old enough for Medicare. The asbestos shingles need to be removed--well, the ones that haven't crumbled and fallen to the ground already :(--and then, of course, we would need to replace that roof.

Early estimates have come in at about \$35,000. Other building repairs, which includes internal repairs needed because of the leaks, will be about \$5,000.

If we raise more than that amount or have funds left after the Roof and Repairs, those funds will go toward the mortgage (\$39,000).

Funds will be raised through April 30th with the R & R being made over the summer of 2018.

- At half of the goal (\$20,000) students get an extra recess.
- At three-fourths of the goal (\$30,000) our administrator will kiss a pig.
- When we reach the goal, the students will turn the administrator into a human sundae.

BTW, before we could get this all posted, the Board and staff had already committed over \$6,000 so we nearly half way to that extra recess!

Also, if you prefer, you can mail a donation to VCA, 805 N. 1st St., Indianola, IA 50125. This will avoid the 2.9% fee the credit card company takes to process your donation.

Please share this on all your social media options. YouCaring estimates that every share results in an average of \$37. So we only need 1,081 shares! www.youcaring.com/VCA-R-and-R

Thank you so much for considering a donation to VCA! We appreciate your support--whether that be in praying for us to reach our goal, through a financial gift, or both.
